Reflexology and acupressure are 5000 year-old hands-on therapies that were introduced to the United States in the early 1900's. They are based on the theory that there are reflex zones and acupressure points in the hands and feet which are linked to every organ, tissue, gland and part of the body through energy or qi which travels through zones and channels.

The ancient art of VITAFLEX REFLEXOLOGY AND AROMATHERAPY is an offshoot of TIBETAN MEDICINE and uses essential oils to align the spine, align the energy frequencies of the body and promotes self-healing. All essential oils used are also anti-viral, anti-inflammatory , anti-spasmodic and help support muscle, bone and nerve function. VITAFLEX REFLEX OLOGY and AROMATHERAPY can be used in all chronic , difficult myofascial and viral conditions. Both the zones and acupressure points are manipulated with the oils. **CHINESE HAND AND FOOT REFLEXOLOGY IS MORE REVITALISING AND DEEPER THAN CONVENTIONAL WESTERN REFLEXOLOGY . IT USES A COMBINATION OF MERIDIAN AND ZONE THERAPY.**
